**“Coastline Productions is awesome! We have hired them to produce multiple videos and each one has been outstanding! We wouldn't use anyone else.”**

Lisa Mlles,  
Fast5 Express  
Irvine, CA

---

**“Simone Hogan of Coastline Productions has produced 17 of my 18 videos in the last seven years.** She is efficient, organized, competent, creative, exact and incredibly good at video production. **Her talent never ceases to amaze me.** I have the utmost confidence in her and since I discovered Coastline Productions, I have not used anyone else for video production.”

Sandra Angelo,  
Discover Art  
San Diego, CA

---

“The seven videos you worked on for Hewlett Packard are now in distribution and being received with great praise. Thank you for the highly professional job you did. Not only did you develop some tight scripts, but you managed them all into one very ambitious shooting schedule. When we had product problems, you created new schedules without impacting the overall project deadline.

It's unusual to find a videographer who can successfully learn the technicalities of such complex products as photo lab printers. You were able to take this project through initial conception, script writing, filming, and editing to produce a suite of training videos that met the needs of our repair technicians. **Our project manager at HP says this was one of his favorite projects, as it met all goals for budget, quality, and dates.** Thank you for a job well done. We look forward to working together in the future.”

Rick Schreiner,  
Paradigm Information Services, Inc.  
San Diego, CA

---

“We hired Coastline Productions to shoot a promotional video for our school. It was a 2-day shoot that featured an interview with a special guest and staged shots of the students to illustrate his points. Simone put the whole thing together seamlessly and we couldn't be happier with the final product.

**Simone was incredible to work with** - she arrived early on both days, **was able to adjust to last minute changes that arose, and could not have been more professional.**”

Paige Maslen  
Army and Navy Academy  
Carlsbad, CA

---

“Alvarado searched for a video company to help us complete an important project. It presented a number of challenges, such as combining existing footage with new video to be shot at LAX and out production facilities. We literally had only a few days to complete the video in time for a major industry trade show.

Coastline Productions provided script development, production, editing, music and narration, and they expertly handled scheduling and coordination of the video shoot at LAX under very tight restrictions.. They also worked with us to shoot at our facility with a minus of disruption to our manufacturing process.

Needless to say, the finished project was completed by deadline, did not go over budget, and was instrumental in helping us introduce our product to the US market. Simone Hogan and **Coastline Productions made it possible for Alvarado to come up with an impressive product video and to deliver it under an almost impossible deadline.** I honestly don't know how we would have done it without them.”

Tom Laib,  
Alvarado Manufacturing  
Chino, CA

---

**“Worked with Coastline Productions on 9 videos so far and more on the way.**

Simone and crew are great, work well together, with our own team, and with the acting talent. She always brings a great sense of both an analytic mind - with her keeping on schedule and knowing exactly what shots and when she needs them - along with a very creative mind with new ideas on how to do things. She is just a pleasure to work with and produces great products. **Couldn't be happier with our choice.**”

Josh Liebermann,  
Sally Ride Science,  
San Diego, CA

---

“I would highly recommend using Coastline Productions for any and all projects that require a professional and personal touch. **Simone took the time to listen and get to know our company and our needs.** She also had a full understanding of the product we wanted to market. Simone wrote our script and did a beautiful job so the footage followed the script. She even went out of her way to re-shoot our existing footage free of charge to assure that our end product was something we could all be proud of.”

Robin Page,  
Utility Vault,  
Fontana, CA

---

“ Thank you for the excellent job Coastline Productions did on our corporate and employee orientation videos. You and your company did exactly what you said you would do, without any deviations or excuses. We are very happy with the videos you made for us. They actually exceeded our expectations. **We have already developed two new customers that would not have given us the time of day without the help of the videos.**”

Dean Gaffney,  
Plastics Engineering and Development,  
Carlsbad, CA
